

Judith Packer
Business & Development Director (job share)

Judith is a long-standing South East Dancer, having joined the organisation back in the early days of 2000. Since then, Judith has helped to grow the annual turnover to over ten times what it was when she started, and she has been instrumental in building the team that works here today.

Since graduating from the University of Sussex with a degree in Politics and Social Sciences, Judith has acquired 15-years work experience in the public and charity sectors. An interest and passion for the arts and public services means her knowledge is always current, and she relishes the challenge of working in areas of development.

Judith had her first child, Robin, in 2008. She is now happy to return to South East Dance after maternity leave as Business & Development Director (job share), working with Charlotte Semlyen.

Outside of work Judith is a keen piano player and, as you might expect, loves going to the theatre, live music events, dance performances and art galleries. She also loves reading, walking and practices yoga.
