THE FESTIVAL

Still touring around the world to Hungary, Brazil, Spain, Australia,... with the best of moves09, **moves Festival** returns to the **North West of England** from the **21 to 25 of April 2010** at the renowned cultural centre **The Bluecoat, in Liverpool**.

moves is back with a new and exciting programme including a **PRIZE to tour Europe** (see below), old favourites, new strands and as always the best selection of short films exploring movement on screen... For news and updates, log on to our **website**.

moves is the largest exhibition platform in the UK for experimental short film and new media with a unique focus on movement on screen, exploring new ways of telling stories through films, screen-based installations and discussion.

moves08 questioned the relations between movement and sound on screen, moves09 looked at stories beyond movement. **moves10 will explore the notion of framing movement through screenings, installations, live events, forums...**

moves is now inviting artists to submit their work for the 2010 festival; **deadline is Sunday 13th December 2009**.
